

# ALASKA

BOTTLE OF THE MONTH

**HRASTNIK 1860**

## ALASKA

### Distortion in Art

Inspired by distortion in art and architecture with a soft and simple formal language. While most bottles are volumes of revolution this concept is a freeform model defined by two ellipses placed at a right angle to each other. The front view with wide shoulders presents masculinity while the side view presents a soft more feminine side of the bottle.
