PERSEI

Strong Sophistication

Named after the ancient Greek legend Perseus, who personifies intelligence and strength, the Persei bottle impresses with its versatile shape, suitable for a range of spirits including gin, tequila, rum, and cognac. Just as the constellation Perseus was named after the hero, we can easily imagine a noble drink in the rounded Persei bottle with its strong bottom. The possibilities for personalization and decoration are almost endless, making it an ideal choice for any premium spirit.
